Notice of Allowability	Examiner	Art Unit	
·	Jimmy Nguyen	2829	
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.			
1. X This communication is responsive to terminal disclaimer 10/26/04.			
2. The allowed claim(s) is/are <u>1 - 6</u> .			
3. 🔀 The drawings filed on <u>01 April 2004</u> are accepted by the Examiner.			
4. Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a)			
each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d). 7. DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

DETAILED ACTION

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior arts of record disclose sensor comprising: a substrate arranged along a XYplane of an XYZ three-dimensional coordinate system, and a working body receiving a force and
located adjacent to said substrate with a predetermined distance. However, the prior arts of
record are silent on the above combination with a flexible member made of silicon supporting
said working body at a periphery thereof so that said working body is suspended and spatial
deviation of said working body is produced by applying said force thereto; a fixing member
fixing said flexible member to said substrate; and a transducer for transforming said spatial
deviation into an electric signal that indicates a direction and a magnitude of said force,
said method comprising the steps of:

providing a deviation electrode and a fixed electrode, said deviation electrode being located at a position which deviates along with said working body and said fixed electrode being fixed to said substrate so as to face said deviation electrode;

applying a voltage between said deviation electrode and said fixed electrode so that

Coulomb force is produced which causes spatial deviation of said working body in an X-axis

direction of said XYZ three-dimensional coordinate system

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 2829

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jimmy Nguyen whose telephone number is (571) 272-1965.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 305-4900.
